

# MAGIC LAMP INSTALLATION INSTRUCTIONS

---

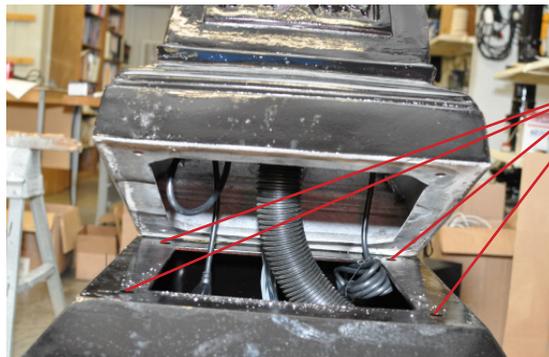

Install supplied light bulbs and globes. Light globes are held on by three bolts shown at the base of the globe holder.

Tightening Bolts For Globe

---

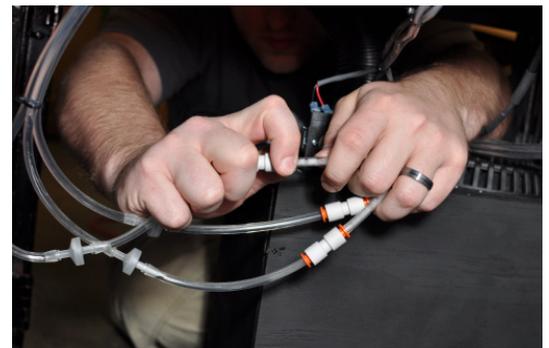

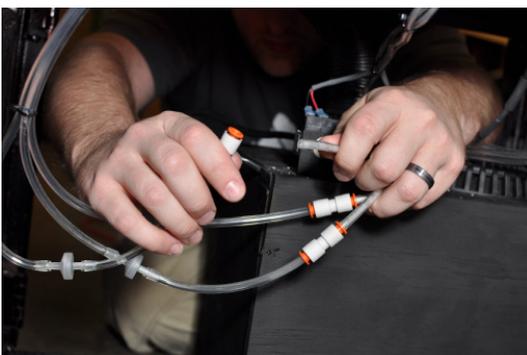

Mount the upper portion of the Magic Lamp onto the base provided. Use the supplied bolts to secure the four mounting points between the two sections.

Bolt Mounting Points

---

Attach the three solution tubes shown below.

Place solution bucket in holder, and place solution tubes in bucket as shown.

---

Plug in power supply. Extension cord can be used if needed.

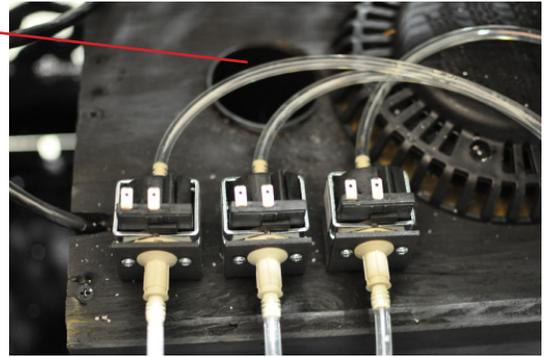

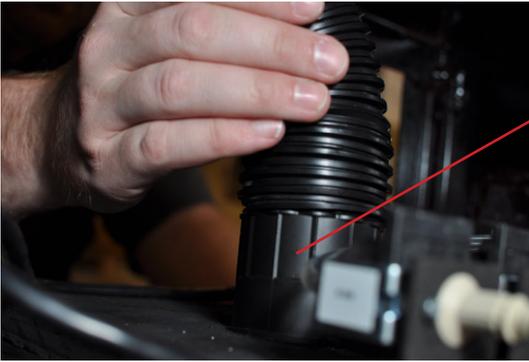

---

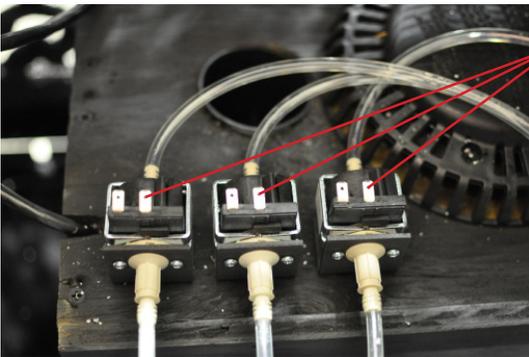

Controls are located behind the removable panel.

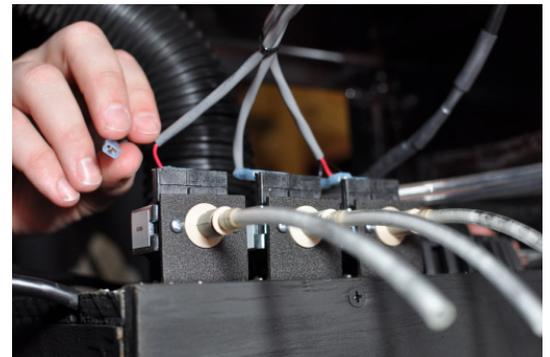

Attach blower hose to top of box.

Plug in power clips, as shown below.

Positive (Red Clips)

Attach blower power cable.
